

press release

Bologna, 28 October 2021

Four lots of the Consip tender go to Hera Comm

The Hera Group's sales company has been awarded the lots for the Province of Rome, Campania, Calabria and Sicily, involving roughly 39,000 supply points and an annual supply of over 3.4 TWh of electricity, worth more than 580 million euro

Hera Comm will supply electricity to Public Administrations in the Province of Rome, Campania, Calabria and Sicily. The Hera Group's sales company has in fact been awarded 4 of the lots put to tender by Consip, worth over 580 million euro, meaning that Hera will serve approximately 39,000 supply points overall, providing over 3.4 TWh of energy.

The agreement will be effective as of the end of the year and will have a total duration of up to 24 months, depending on the supply option chosen, with a fixed or variable price. Hera Comm won this tender thanks to its advantageous economic offer, which also includes a Green Option, with 50% of the energy supplied coming from renewable sources.

The Hera Group has thus confirmed itself as a leading player on the Italian energy scene, with 3.4 million customers, the third largest among Italian sales companies.

Hera Comm has a well-established relationship with Consip, this being the third consecutive year in which it has been awarded lots in tenders called by Consip, for the supply of both electricity and gas.
