

Alliance for Water Stewardship Certification of the Val di Setta potabilization plant

AWS registration number AWS-000213

The AWS certification journey undertaken voluntarily by the Val di Setta potabilization plant is coming to an end. The AWS certification has been implemented to promote the protection of local water resources and engage stakeholders in its enhancement. The company SGS will conduct an Audit assessment to verify Val di Setta's compliance with the Alliance for Water Stewardship International Standard - Version 2.0: 2019.

Audit assessment

- ✓ 31st March 2021 – 1st April 2021 remote Audit assessment due to COVID 19 restrictions
- ✓ On site Audit assessment to be planned based on national and international COVID 19 restrictions

Invitation to interested parties

Those who wish to submit comments or observations on the site's compliance to the AWS Standard will be able to:

- ✓ Request to participate in the remote Audit by sending an email to segreteria@gruppohera.it
- ✓ Send feedback to SGS lead auditor jerónimo.casas@sgs.com.

Those wishing to submit comments or observations should identify themselves and clearly define the reasons of interest.
